

Female New Patient Package

The contents of this package are your first step to restore your vitality.

Please take time to read this carefully and answer all the questions as completely as possible.

Thank you for your interest in BHRT utilizing Pellets. In order to determine if you are a candidate for bioidentical testosterone pellets, we need laboratory and your history forms. We will evaluate your information prior to your consultation to determine if BHRT can help you live a healthier life. **Please** complete the following tasks before your appointment:

2 weeks or more before your scheduled consultation: Get your blood lab drawn at any Quest Laboratory/ or LabCorp Lab. If you are not insured or have a high deductible, call our office for self-pay blood draws. We request the tests listed below. It is your responsibility to find out if your insurance company will cover the cost, and which lab to go to. Please note that it can take up to two weeks for your lab results to be received by our office.

Your blood work panel MUST include the following tests:

Estradiol
FSH
Testosterone Total
TSH
T4, Total
T3, Free
T.P.O. Thyroid Peroxidase
CBC
Complete Metabolic Panel
Vitamin D, 25-Hydroxy (Optional)
Vitamin B12 (Optional)
Lipid Panel (Optional) (Must be a fasting blood draw to be accurate)
Female Post Insertion Labs Needed at 4, 6 or 8 Weeks based on your practitioner's choice:
FSH
Testosterone Total
CBC
Lipid Panel (Optional) (Must be a fasting blood draw to be accurate)
TSH, T4 Total, T3 Total, TPO (Needed only if you've been prescribed thyroid medication
